SANLORENZO SX88 (2022)

DESCRIPTION

Observing the superstructure that reaches forward, and the beach area with the proportions of a large terrace, it becomes immediately clear that the SX line is a revolutionary project. Functions and uses of spaces intertwine, giving rise to a "crossover" yacht that is perfect for sophisticated contemporary owners. The main deck has been freed of the wheelhouse, which is instead placed on the flying bridge: the result is a continuous space to be used as a large, unified living area. The upper deck, which hosts the wheelhouse, has a dual function: protected towards the bow by a fixed windshield, thanks to a system of sliding panels it can become a closed, climate controlled panoramic lounge; kept open on the three sides towards the stern, it provides direct contact with the sea. Her four-cabin interior layout provides spacious accommodation for up to eight guests on her lower deck divided into a master suite, a forward VIP suite and two twin cabins.
