GENTLEMAN

23.96 M (78.7') | PICCHIOTTI | 2026

Gentleman
PICCHIOTTI

WELCOME ON BOARD

Built by Picchiotti, The Italian Sea Group and delivered in 2026, GENTLEMAN is a 23.96m all-aluminium motor yacht that combines contemporary Italian design with efficient engineering and exceptional versatility. Designed by Luca Dini, Picchiotti Centro Stile, she features a clean, timeless profile complemented by expansive exterior living areas. Large sliding glass doors seamlessly connect the saloon to the aft cockpit, while the fold-out sea terrace extends the usable deck space at anchor.

A spacious, air-conditioned beach club creates a true waterfront lounge, ideal for relaxing or entertaining, while the generous foredeck sun pad offers an additional private retreat. Her exterior layout has been carefully designed to maximise comfort, functionality and effortless enjoyment on the water.

INTERIORS

The interior has been designed with a focus on space, flexibility and refined contemporary styling. Bright, open living areas are enhanced by generous glazing, creating a light-filled atmosphere throughout. The main saloon incorporates a comfortable lounge and formal dining area, with the option to configure part of the space as a private owner's office. Premium finishes, carefully selected materials and clean architectural lines create an elegant yet practical environment suited to both private cruising and extended stays onboard.

ACCOMMODATION

GENTLEMAN accommodates 6 guests in three spacious double cabins, each offering a high level of comfort, privacy and ensuite facilities.

A standout feature is the fully air-conditioned beach club, which can be converted into a fourth guest cabin with its own ensuite shower room, increasing accommodation to 6+2 guests when required.

Separate crew quarters for three crew members ensure discreet service while maintaining complete guest privacy throughout every voyage.
